Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do. Success, by definition, means to accomplish your goals. Some people define success by measures such as wealth, position or status and one's capabilities. It is also believed by many people that a successful person must be rich, but in many cases, money cannot buy you success. In fact, there are some factors which help us be successful. Start by setting your goals. Having a goal is an essential thing, but it should be a smart goal a successful person must be rich,. It requires to stretch your capabilities and to stay committed and remind yourself that it is not the end of the road. One step more, if there was only one secret to success, it would be preparation. It will set you in the best position to execute the task with the least difficulty. Timing also is a crucial ingredient to success. The only method of obtaining good timing is through repetition or experience. Furthermore, one needs confidence to be successful. He has to start with smaller tasks that have a higher chance of success to build up confidence. Parents should help their young children to build up confidence and become and happy in their life. They should discover at an early age the talents of their children and help them to grow their gift and take care of their needs and interests. Actions are louder than words. When you take action, you trigger all kinds of things that will inevitably carry you to success. Every step taken by you in the direction of your dreams and goals brings you closer at jet speed. Nothing happens until you take action. To be successful, you have to do what successful people do. All highly successful people are highly action-oriented people. It is said: "Success is 10% inspiration and 90 % perspiration." The golden rule to achieve success is to keep learning. These are three dangerous words: "I know that." If you have read or heard about something, you do not know. If you are not rich and successful the way you want, then you do not know.
