

A -Read the following text, then choose the correct answer A, B, C or D: (60 marks)

Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do. Success, by definition, means to accomplish your goals. Some people define success by measures such as wealth, position or status and one's capabilities. It is also believed by many people that a successful person must be rich, but in many cases, money cannot buy you success. In fact, there are some factors which help us be successful. Start by setting your goals. Having a goal is an essential thing, but it should be a smart goal a successful person must be rich,. It requires to stretch your capabilities and to stay committed and remind yourself that it is not the end of the road. One step more, if there was only one secret to success, it would be preparation. It will set you in the best position to execute the task with the least difficulty. Timing also is a crucial ingredient to success. The only method of obtaining good timing is through repetition or experience. Furthermore, one needs confidence to be successful. He has to start with smaller tasks that have a higher chance of success to build up confidence. Parents should help their young children to build up confidence and become and happy in their life. They should discover at an early age the talents of their children and help them to grow their gift and take care of their needs and interests. Actions are louder than words. When you take action, you trigger all kinds of things that will inevitably carry you to success. Every step taken by you in the direction of your dreams and goals brings you closer at jet speed. Nothing happens until you take action. To be successful, you have to do what successful people do. All highly successful people are highly action-oriented people. It is said: "Success is 10% inspiration and 90 % perspiration." The golden rule to achieve success is to keep learning. These are three dangerous words: "I know that." If you have read or heard about something, you do not know. If you are not rich and successful the way you want, then you do not know.

1. Success is.....

- a- perseverance and learning b- studying and sacrifice
c-a and b d. to be lazy

- a- honest and trustful b-useful and generous
c- a and b d-careless and useless

B -Read the following text, then choose the correct answer A or B: (60 marks)

One of the most destructive moments in our lives is failure. When we work hard and keep faith with clear heart and soul to accomplish something and fail, it will surely have negative consequences for our lives. When we fail, life turns upside down. Everything seems to disappear into thin air. However, most people don't realise that failure acts as a stepping-stone towards success. They don't know that we can learn more about our lives when we fail. Throughout history, there have been many famous people who had once the greatest failures in their lives, but later they could learn from their experience and were able to reach the top. Thomas Edison is by far one of the most famous inventors in history. He holds 1,093 patents to his name. However, when attempting to invent a commercially-viable electric lightbulb, he failed over 10,000 times. When asked by a reporter how it felt to fail so many times, he merely stated, "I have not failed 10,000 times. I have not failed once. I have succeeded in proving that those 10,000 ways will not work. When I have eliminated the ways that will not work, I will find the way that will work."

Albert Einstein, one of the greatest thinkers of our time, didn't speak until he was four-years old. He also failed his entrance exam to the Swiss Federal Polytechnic school located in Zurich at sixteen-years old. And, even his father, up until the time of his death, considered his son to be a major failure. After eventually graduating from college, Einstein actually worked as an insurance salesman, but quit after some time because he failed at that as well.

Walt Disney is the creative genius who brought us the likes of Mickey Mouse, Donald Duck and Snow White. He created the Walt Disney Company after his own namesake. Yet, he faced many failures. His first company, Laugh-O-Gram went bankrupt. It wasn't until 5 years later and plenty of heartache - after he created Mickey Mouse - did he begin to experience a small amount of success and fame.

7. When we fail, it will surely have negative consequences for our lives.
