Mariam was a teacher who wanted to motivate her students and make them do their best in the exam. So, she told them that she would give a gift, which was a new pair of shoes, to the one whose marks would be excellent. Children rejoiced over this challenge and they all started writing diligently. After collecting the papers, the teacher was surprised to find that everyone had a full mark.

Who would get the gift? she thought. The teacher thanked everyone for their effort, but she was confused about who would deserve the award as everyone had got the full mark. The teacher thought of a suitable solution with her students. The students' opinion was that each of them would write his/her name on a folded paper and put it in a box from which the teacher would pick one. So, the paper will reveal the name of the award's winner. Indeed, the teacher picked a paper in front of all students and read the child's name [Nada], and said: "you are the owner of the award". With joy and tears in her eyes, Nada came forward where the shoes were. She thanked everyone for this wonderful gift. Her parents couldn't afford to buy her new shoes because of their extreme poverty. The teacher returned home crying and told her husband what had happened. He was surprised and wanted to know the reason of her tears. She said: "When I opened the rest of the papers, I found that all the students had written the same name [Nada]".
